

	radio	architecture	security	ecosystem & scale	timing & business
1G	FM + reuse	analog switch	cloning	national systems	people paid
2G	GMSK, hopping	circuit only	secret A5, one-way	MoU, SIM, roaming	SMS, prepaid
3G	WCDMA, turbo	RNC far from radio	mutual AKA	WCDMA vs CDMA2000	auction debt, data late
4G	OFDMA, MIMO (CRS regret)	flat all-IP	AKA kept	one global standard	met the smartphone
5G	numerology, beams	cloud core, slicing	SUCI	global	weak business case
